CAUTIONARY STATEMENTS

FORWARD-LOOKING STATEMENTS

Certain statements contained in this presentation may be deemed "forward-looking statements" within the meaning of the United States Private Securities Litigation Reform Act of 1995 and "forward-looking information" within the meaning of applicable Canadian securities legislation. Forward-looking statements are statements of historical fact, that address, without limitation, future events, production estimates of OR Royalties's assets (including increase of production), the revised 2024 guidance on GEOs and the 5-year outlook on GEOs included under "Guidance for 2024 and 5-Year Outlook" and other guidance based on disclosure from operators, timely developments of mining properties over which OR Royalties, streams, offtakes and investments, management's expectations regarding OR Royalties' growth, results of operations, estimated future revenues, production costs, carrying value of assets, ability to continue to pay dividend, requirements for additional capital, business prospects and opportunities, future demand for and fluctuation of prices of commodities (including outlook on gold, silver, diamonds, other commodities) currency, markets and general market conditions. In addition, statements and estimates (including data in tables) relating to mineral reserves and resources and statements and revised guidance as to gold equivalent ounces are forward-looking statements, as they involve implied assessment, based on certain estimates and assumptions, including the assumptions set out under "Guidance for 2024 and 5-Year Outlook", and no assurance can be given that the estimates or related revised guidance will be realized. Forward-looking statements are generally, but not always, identified by the words "expects", "plans", "anticipates", "believes", "intends", "projects", "potential", "scheduled" and similar expressions or variations (including negative variations), or by statements that events or conditions "will", "would" or "should" occur. Forward-looking statements are subject to known and unknown risks, uncertainties and other factors, most of which are beyond the control of OR Royalties, and actual results may accordingly differ materially from those in forward-looking statements. Such risk factors include, without limitation, (i) with respect to properties in which OR Royalties holds a royalty, stream or other interest; risks related to: (a) the operators of the properties. (b) timely development, permitting, construction, commencement of production, ramp-up (including operating and technical challenges). (c) differences in rate and timing of production from resource estimates or production forecasts by operators, (d) differences in conversion rate from resources to reserves and ability to replace resources. (e) the unfavorable outcome of any challenges or litigation relating to title, permit or license. (f) hazards and uncertainty associated with the business of exploring. development and mining including, but not limited to unusual or unexpected geological and metallurgical conditions, slope failures or cave-ins, flooding and other natural disasters or civil unrest or other uninsured risks; (ii) with respect to other external factors: (a) fluctuations in the prices of the commodities that drive royalties, streams, offtakes and investments held by OR Royalties, (b) fluctuations in the value of the Canadian dollar relative to the U.S. dollar, (c) regulatory changes by national and local governments, including permitting and licensing regimes and taxation policies, regulations and political or economic developments in any of the countries where properties in which OR Royalties holds a royalty, stream or other interest are located or through which they are held. (d) continued availability of capital and financing to OR Royalties or the operators of properties, and general economic, market or business conditions, and (e) responses of relevant governments to infectious diseases outbreaks and the effectiveness of such response and the potential impact of such outbreaks on OR Rovalties' business, operations and financial condition; (iii) with respect to internal factors; (a) business opportunities that may or not become available to, or are pursued by OR Rovalties, (b) the integration of acquired assets or (c) the determination of OR Rovalties' Passive Foreign Investment Company ("PFIC") status. The forward-looking statements contained in this presentation are based upon assumptions management believes to be reasonable, including, without limitation: the absence of significant change in the Company's ongoing income and assets relating to determination of its PFIC status; the absence of any other factors that could cause actions, events or results to differ from those anticipated, estimated or intended and, with respect to properties in which OR Royalties holds a royalty, stream or other interest. (i) the ongoing operation of the properties by the owners or operators of such properties in a manner consistent with past practice and with public disclosure (including forecast of production). (ii) the accuracy of public statements and disclosures made by the owners or operators of such underlying properties (including expectations for the development of underlying properties that are not vet in production). (iii) no adverse development in respect of any significant property. (iv) that statements and estimates relating to mineral reserves and resources by owners and operators are accurate and (v) the implementation of an adequate plan for integration of acquired assets.

For additional information on risks, uncertainties and assumptions, please refer to the most recent Annual Information Form of OR Royalties filed on SEDAR+ at www.sedarplus.ca and EDGAR at www.sec.gov which also provides additional general assumptions in connection with these statements. OR Royalties cautions that the foregoing list of risk and uncertainties is not exhaustive. Investors and others should carefully consider the above factors as well as the uncertainties they represent and the risk they entail. OR Royalties believes that the assumptions reflected in those forward-looking statements are reasonable, but no assurance can be given that these expectations will prove to be accurate as actual results and prospective events could materially differ from those anticipated such the forward-looking statements included in this presentation are not guarantee of future performance and should not be unduly relied upon. In this presentation, OR Royalties relies on information publicly disclosed by other issuers and third-parties pertaining to its assets and, therefore, assumes no liability for such third-party public disclosure. These statements speak only as of the date of this presentation. OR Royalties undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, other than as required by applicable law.

SAFE HARBOUR STATEMENT

This presentation has been prepared for informational purposes only in order to assist prospective investors in evaluating an investment in OR Royalties Inc. The information related to mining operators provided in this presentation has been sourced from public disclosure. Inquiries regarding this presentation can be made to the senior management of OR Royalties.

CAUTIONARY NOTE TO U.S. INVESTORS REGARDING MINERAL RESERVE AND MINERAL RESOURCE ESTIMATES

OR Royalties is subject to the reporting requirements of the applicable Canadian securities laws, and as a result, reports its mineral resources and reserves according to Canadian standards. Canadian reporting requirements for disclosure of mineral properties are governed by National Instrument 43-101 ("NI 43-101"). The definitions of NI 43-101 are adopted from those described by the Canadian Institute of Mining, Metallurgy and Petroleum ("CIM"). In a number of cases OR Royalties has disclosed resource and reserve estimates covering properties related to the mining assets that are not based on CIM definitions, but instead have been prepared in reliance upon JORC and S-K 1300 (collectively, the "Acceptable Foreign Codes"). Estimates based on Acceptable Foreign Codes are recognized under NI 43-101 in certain circumstances. New mining disclosure rules under Subpart 1300 of Regulation S-K became mandatory for U.S. reporting companies beginning with the first fiscal year commencing on or after January 1, 2021. CIM definitions are not identical to those of the Acceptable Foreign Codes, the resource and reserve definitions and categories are substantively the same as the CIM definitions mandated in NI 43-101 and will typically result in reporting of substantially similar reserve and reserve or resource estimates under there are differences between the terms and definitions of the CIM and the Acceptable Foreign Codes, and there is no assurance that mineral reserves or mineral resources would be identical had the owner or operator prepared the reserve or resource estimates under another code.

Mr. Guy Desharnais, PhD., P.Geo., is the qualified person for this presentation as defined by National Instrument 43-101 – Standards of Disclosure for Mineral Projects and has reviewed and verified the technical information contained herein. Mr. Desharnais is an employee of OR Royalties and is non-independent.

SENIOR-QUALITY PORTFOLIO, LEADING GROWTH POTENTIAL TSX | NYSE: OR

- Senior-quality precious metal portfolio
 22 producing assets⁽ⁱ⁾ anchored by a 5% NSR royalty on Agnico Eagle's Canadian Malartic Complex⁽ⁱⁱ⁾
- Peer-leading organic growth profile
 Attributable GEO¹ delivery growth of ~40% based on current 5-year outlook for 2029E (110-125k GEOs)
- Highest concentration of assets in low-risk Tier-1 mining jurisdictions⁽ⁱⁱⁱ⁾ On a Net Asset Value basis and vs. relevant peers
- Strong balance sheet & disciplined capital allocation strategy

~\$885 million in available liquidity as of June 30, 2025 between cash and undrawn revolving credit facility (incl. \$200 million accordion)

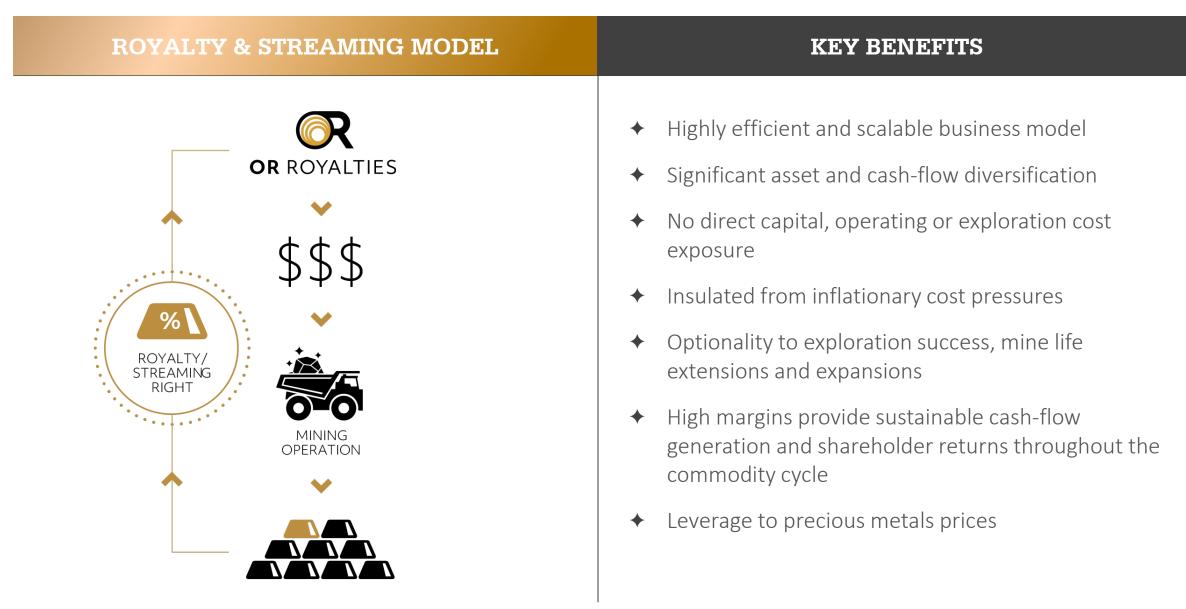

Note: Market capitalization, dividend and P/NAV as at market close on June 27, 2025

(i) Includes Cardinal Namdini Mining Ltd.'s Namdini mine as first payment was received in Q2 2025; G Mining Ventures Corp.'s Tocantinzinho (TZ) mine; Talisker Resources Ltd. Bralorne mine; and, Agnico Eagle Mines Ltd.'s Akasaba West satellite mine at Goldex

- (ii) Canadian Malartic Open Pits 5.0% NSR Royalty; Canadian Malartic Odyssey Underground Blended 4.61% NSR Royalty
- (iii) vs. precious metals royalty & streaming peers; 'Tier-1' mining jurisdictions defined as: Canada, USA, Australia

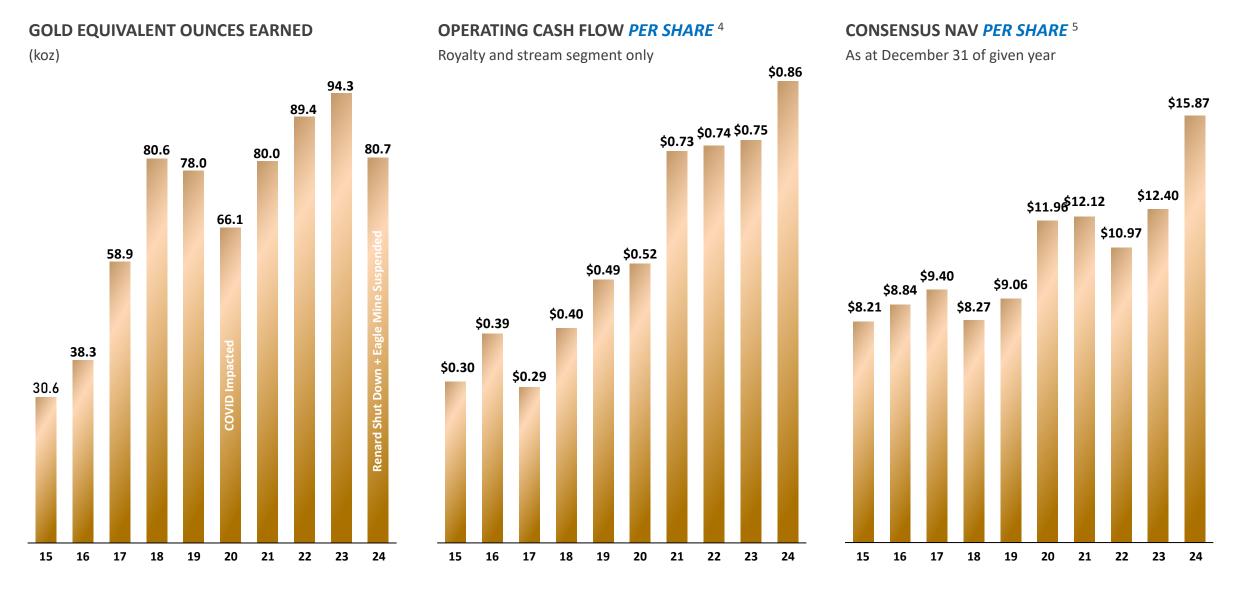

CORE BENEFITS OF THE ROYALTY & STREAMING BUSINESS MODEL

WHY OR ROYALTIES? +10-YEAR TRACK RECORD...

10+ YEAR TRACK RECORD OF CONSISTENT GROWTH IN PER SHARE METRICS

WHY OR ROYALTIES? TIER-1 MINING JURISDICTIONS + MARGIN MATTERS

100% 80% 60% 40% 20% 0% TFPM RGLD **FNV** OR **WPM** SAND USA Australia Latin America (Incl. Mexico & Caribbean) Europe Africa Asia **Tier-1** Jurisdictions Data Source: Canaccord Genuity Capital Markets Precious Metals Research, June 2025

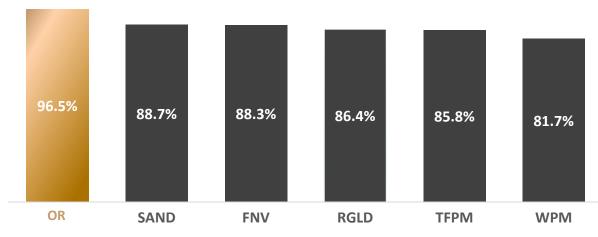

NAV BREAKDOWN BY JURISDICTION (%)

✦ Highest Exposure to Tier-1 Mining Jurisdictions⁽ⁱ⁾ vs. relevant precious metals royalty & streaming peers

- GEOs earned in-line with NAV exposure: 78% of GEOs earned in 2024 from Tier-1 Mining Jurisdictions⁽ⁱ⁾
- OR's NAV exposure to Tier-1 Mining Jurisdictions⁽ⁱ⁾
 increased in 2024

Margin Matters → OR Royalties's cash margin is peer-leading

- OR's cash margin was *11.9% higher* vs. average of relevant peer set in 2024 due to the highest proportional GEO contribution vs. peers from *royalty* assets
- OR Royalties & its shareholders earn ~\$0.97 of every dollar of revenue generated⁽ⁱⁱ⁾

2024 CASH MARGIN (%)^{2,6}

6

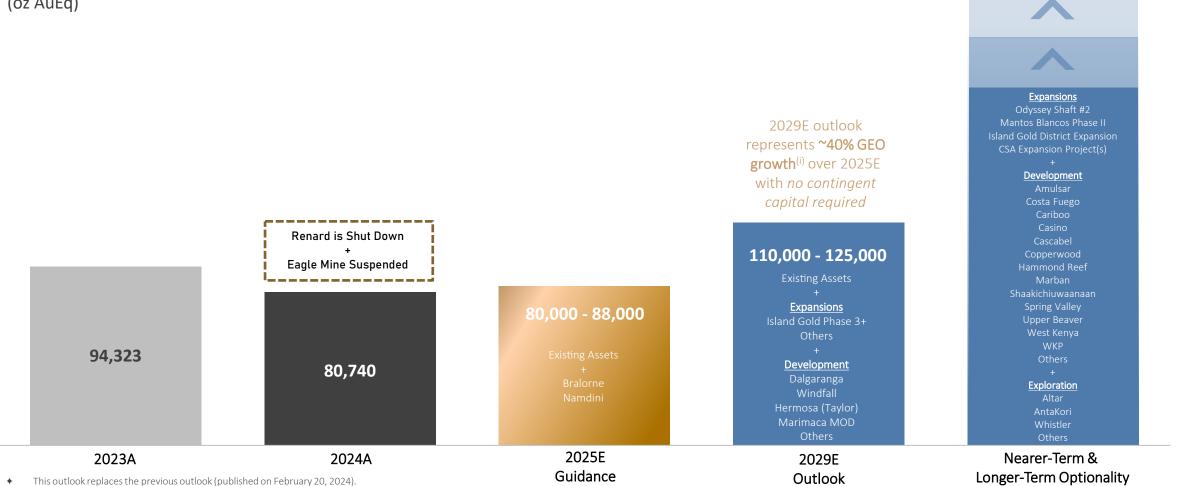

Note: TFPM classifies some of its gold pre-pay costs as non-cash. These have been included in the cash margin calculation to comport with the definition of cash margin utilized by OR Royalties.

WHY OR ROYALTIES? GEO GROWTH THROUGH TO THE END OF THE DECADE...

GUIDANCE AND 5-YEAR OUTLOOK^{1,7}

(oz AuEq)

The 2025 outlook (published on February 19, 2025) is based on publicly available forecasts from our operating partners. +

When publicly available forecasts on properties are not available, OR Royalties obtains internal forecasts from the producers or uses management's best estimate.

The 2025 guidance uses current 2025 consensus commodity prices and a gold/silver price ratio of 83:1. The 5-year outlook uses current long-term consensus commodity prices and a gold/silver price ratio of 80:1. +

Optionality bar is illustrative only: +

"Development" defined as partner having at least completed a Preliminary Economic Assessment (or more) on the project;

"Exploration" defined as partner having completed a Mineral Resource Estimate (MRE) on the project, or is in the process of exploratory drilling in or to be working towards an initial MRE.

WHY OR ROYALTIES? A HIGH-QUALITY PORTFOLIO

"Guidance Not Included" -> High-quality development assets that are currently <u>NOT</u> included in OR Royalties' 5-year Outlook (for 2029e)⁸

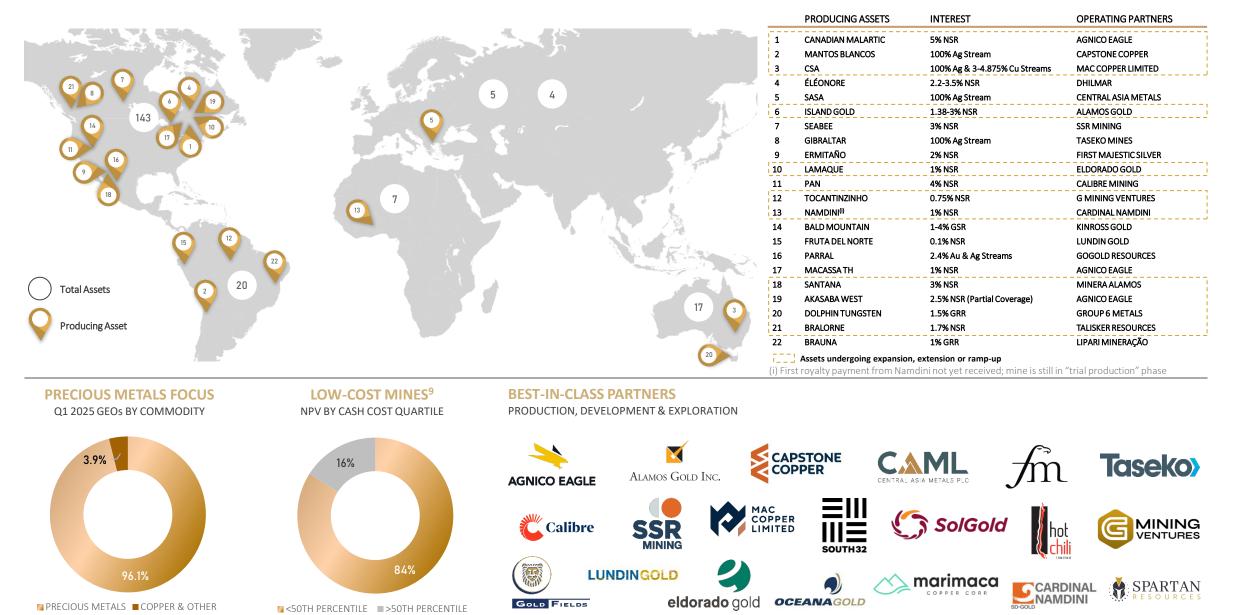

SPRING VALLEY (Au)	0.5-3.5% NSR ~6,000 GEO/y			 Final project permits, including BLM Record of Decision expected mid-year 2025 May 2025 Letter of Interest from the Export-Import Bank US (EXIM) for up to \$835M Potential for average annual prod'n of ~300koz Au over 10-yr LOM (excludes residual leach year) FID and construction start possible for H2 2025
CARIBOO (Au)	5.0% NSR ~10,000 GEO/y		*	 Rare, fully-permitted project in a Tier-1 mining jurisdiction (British Columbia, Canada) Optimized FS, underground development, bulk sampling and ore sorting further derisk asset Potential for average annual prod'n of ~190koz Au over 10-yr LOM FID possible in 2025, with first gold potentially in 2027 (subject to project financing)
UPPER BEAVER (Au, Cu)	2.0% NSR ~4,000 GEO/y	AGNICO EAGLE	*	 Road, power and shaft collar complete Excavation of the ramp and shaft sinking for project de-risking/bulk samples (H2 2025) Potential for average annual prod'n of ~210koz Au and 3.6kt Cu over 13-yr LOM First production possible for ~2030
AMULSAR (Au, Ag)	49.22% Ag Stream 3.34% Au Stream ~6,000 GEO/y	LYDIAN ARMENIA		 Documentation ongoing for transfer of project to United Gold (private gold development company) Government participation (~12.5% equity stake) and loan guarantees Construction could resume in H2 2025
NAVIDAD (Au, Ag)	2.0% NSR ~2,000 GEO/y	<i>f</i> m	۹	 New discovery at First Majestic's operating Ermitaño mine / Santa Elena mill March 31, 2025 maiden MRE of Inferred 2.3Mt at 81 g/t Ag and 3.42 g/t Au (5.9Moz Ag + 249koz Au) During 2025, additional drilling from surface is planned to continue testing the potential expansion of Navidad, which remains open in multiple directions
SOUTH RAILROAD (Ag)	100% Ag Stream ~500 GEO/y			 Notice of Intent expected to be published mid-2025 with Record of Decision targeted for mid-2026 Following final permits, project approval and construction, first Au & Ag expected in late 2027 2025 exploration program for the South Carlin Complex is focused on increasing near-deposit oxide Mineral Resources at Pinion and Dark Star targets
WHAREKIRAUPONGA (Au)	2.0% NSR ~4,000 GEO/y ⁽ⁱ⁾	OCEANAGOLD	***	 March 2025 application submitted for the grant of Fast-track approvals for Waihi North Project, including Wharekirauponga (WKP) expected to be fully-permitted by EOY 2025, with initial ramp-development expected in 2026 WNP PFS published in December 2024; potential for average annual prod'n of ~155koz Au over 7-yr LOM

(i) For the 5-years during which WKP Underground is the primary source of feed to the Waihi mill

Note: Average GEOs based on publicly available forecasts from our operating partners. When publicly available forecasts on properties are not available, OR obtains internal forecasts from the producers or uses management's best estimate.

WHY OR ROYALTIES? A HIGH-QUALITY PORTFOLIO

CANADIAN MALARTIC COMPLEX

Open Pit, East Gouldie, Odyssey South & western half of East Malartic – 5.0% NSR Royalty

+ Odyssey North and eastern half of East Malartic - 3.0% NSR Royalty

+ Any ore processed from outside CM property – C\$0.40/t Mill Royalty

Québec, Canada | Agnico Eagle Mines Limited

Flagship royalty on Canada's 2nd largest operating gold mine

** Proven and probable

(February 2025)

2014 (100%)

- From 2025- 27, production is expected to be sourced from the Barnat Pit (to be exhausted in 2028) and increasingly complemented by ore from Odyssey and low-grade stockpiles. Updated overall CMC production guidance is for 590koz in 2025e, 560koz in 2026e and 650koz in 2027e¹⁰
 - Odyssey Underground expected to contribute ~85koz Au in 2025, ~120koz Au in 2026 & ~240koz in 2027¹⁰
- Underground steady state production plan of 500 -600koz of gold per year starting in 2028/29 once shaft access is complete¹¹
- Current mine plan from 2023 Internal Study extends to 2042 with ongoing exploration initiatives focused on growth in Mineral Resources¹¹
- Agnico expects to spend approximately \$40.1M for 216,300 m of drilling at Canadian Malartic in 2025, including 176,300 m at Odyssey¹⁰
 - Objective of continuing conversion of Inferred Mineral Resources to Indicated at East Gouldie & Odyssey deposits + expanding the footprint of East Gouldie^{(i),10}
- Future exploration results will be used to support a potential expansion project at Odyssey including a conceptual second shaft scenario (see next page) to increase the overall site throughput that would utilize available excess mill capacity when the open pit activities and stockpile processing are concluded by EOY 2028¹⁰

CANADIAN MALARTIC COMPLEX

Concert Martin

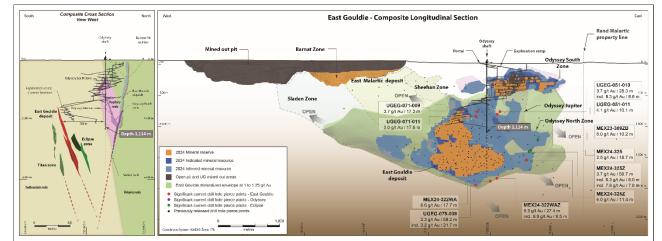

- + Odyssey North and eastern half of East Malartic 3.0% NSR Royalty
- + Any ore processed from outside CM property \$0.40/t Mill Royalty

Québec, Canada | Agnico Eagle Mines Limited

 Complex expected to have ~40ktpd of excess mill capacity starting in late 2028 or 2029¹⁰

- Shaft #2 at Odyssey Underground currently in concept phase; additional clarity on potential Shaft #2 and Agnico Eagle's "Fill the Mill" strategy expected over the next 1-2 years¹²
 - A potential Shaft #2 could add ~15k GEOs to OR's annual earned GEOs over and above the current mine plan, starting in the early 2030's (and at no additional cost to OR)^{(i),12}
- Regional opportunities to "Fill the Mill" currently being studied for Marban (~0.9% NSR royalty + mill tonnage royalty) at 15,000tpd starting in 2033, as well as Wasamac at 3,000tpd (only the mill tonnage royalty would apply)¹⁰
- <u>Recent exploration success</u>: 13 u/g drill rigs and 14 surface rigs drilled a total of 53,376 m in Q1/25 that targeted the eastern and depth extensions of the East Gouldie deposit, the new Eclipse zone (MEX24-325Z intersecting 3.7 g/t gold over 59.7m at 1,413m depth) and portions of the Odyssey deposit near the Odyssey shaft¹²

Source: Agnico Eagle Mines Ltd. (April 2025)

(i) Projected GEOs estimated internally by OR Royalties Inc. based on publicly released information from the operator. Estimates based on the following assumptions: 10,000 tpd of additional ore tonnage; average gold grade of 2.75 g/t Au; 94.6% overall gold recovery; and a 5% NSR Royalty rate¹³

ISLAND GOLD DISTRICT (IGD)

- ◆ June 2025 updated Mineral Reserve of 11.8Mt grading 10.85 g/t Au (4.1Moz) at Island Gold, up 80% from the end of 2024 reflecting the conversion of Mineral Resources¹⁴
- Island Gold Phase 3+ Expansion expected to increase underground mining throughput to 2,400tpd; scheduled for completion by H2/26¹⁴

One of Canada's highest-grade and lowest-cost underground gold

mines located near Wawa, Ontario¹⁴

+

2024

2025

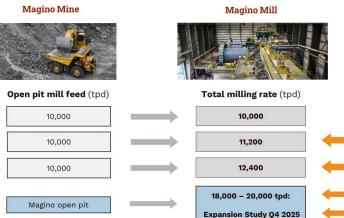

2026-

Long-term

potential

Source: Alamos Gold Ltd. (June 2025)

- IGD Expansion Study to examine increasing Magino mill throughput to between 18-20,000tpd on schedule for completion by Q4 2025¹⁴
 - Island Gold shaft is designed to a hoisting capacity of 5,500tpd at the current planned depth, supporting <u>well in excess of</u> 2,400tpd¹⁴
 - Island Gold high-grade mineralization remains open laterally and at depth, with increasing grades and ounces per vertical metre at depth¹⁵
- The updated as well as the expanded mine plans are also expected to transition a greater proportion of gold production towards OR Royalties' 2% and 3% NSR royalty boundaries earlier in the mine plan (vs. OR'S current 1.38% NSR royalty)

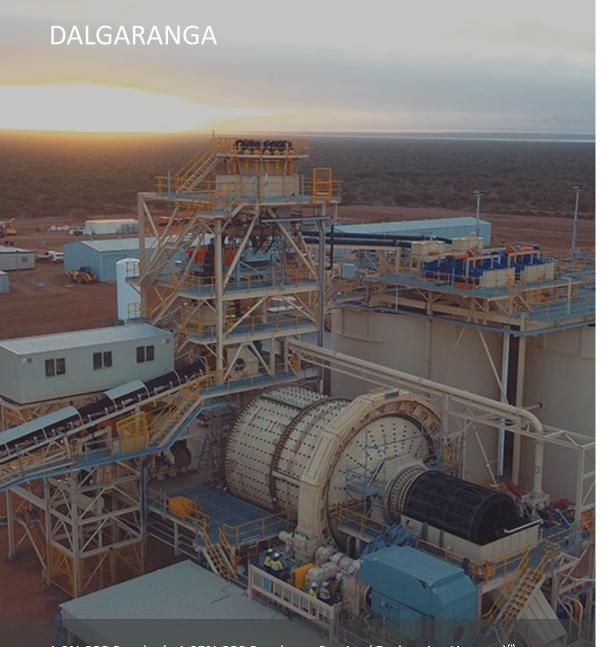

Island Gold Mine

Underground mining rate (tpd)

1.38-3% NSR Royalty at Island Gold Mine3% NSR Royalty on Eastern Limit of planned Magino Open PitOntario, Canada | Alamos Gold Inc.

1.8% GRR Royalty (+ 1.35% GRR Royalty on Proximal Exploration Licenses)⁽ⁱ⁾ Western Australia, Australia | Spartan Resources Limited Located in Western Australia, one of the most prolific and well-established mining jurisdictions, and it is one of the best gold development and production re-start projects globally

- March 17, 2025 announcement that Ramelius Resources and Spartan Resources have entered into a binding Transaction Implementation Deed under which it is proposed that Ramelius will acquire all of the issued ordinary shares of Spartan that it does not already own (ownership prior to announcement of 19.9%)¹⁶
 - Combination of complementary and proximate assets, with significant work already undertaken to optimize the synergies between Ramelius' Mt Magnet mine + operating Checkers Mill, and Dalgaranga¹⁷
- The underground mine is fully-permitted¹⁸; the project has a clear path to nearterm first gold with production from underground
 - Underground development already underway, with Ramelius management indicating first gold production from Dalgaranga ore as early as late 2025 (processed through Ramelius' Checkers Mill)¹⁹
- Spartan still expects to complete a Maiden Mineral Reserve Estimate and a standalone Feasibility Study by Mid-2025 with a full integration study (assuming successful combination by July 2025) expected in calendar Q4 2025¹⁹
- Ramelius already intends to substantively increase exploration activity with a renewed focus on exploration and resource growth across the expanded tenement package¹⁶

⁽i) Spartan and/or Ramelius has the ability to buy back up to 20% of the 1.8% Dalgaranga Royalty (as well as 20% of the proximal 1.35% Exploration Royalty) for a total of A\$3.15 million until February 2027.

(i) For investments originally denominated in CAD, acquisition values were converted to USD using the spot rate on the acquisition date. After-tax cash flows were converted to USD using the average rate in the quarter earned. Consensus NAV figures were converted to USD using the spot rate as at the relevant estimate date. (ii) Mantos Blancos and Island Gold were acquired as part of broader portfolio transactions. For Island Gold, the investment reflects the acquisition of an 85% interest from Teck Resources Limited in 2016 and the remaining 15% from Caisse de dépôt et placement du Québec (CDPQ) in 2020. Investment amounts for asset acquired in portfolios reflect the purchase price allocated to each asset. An additional deposit of US\$25M was made for Mantos Blancos in 2019 to reduce the transfer price and increase the tail stream percentage. For Canadian Malartic, the investment is assumed to be C\$420 million, representing the C\$575 million implied value of "Spinco" shares distributed to Osisko Mining Corporation shareholders in the 2014 joint acquisition by Agnico Eagle Mines Limited and Yamana Gold Inc., net of the C\$155 million in cash held by OR Royalties Inc. at inception. (iii) As at December 31, 2024. Cumulative after-tax cash flow figures represent estimates derived from previously disclosed information. After-tax cash flows by asset were estimated by deducting attributable cost of sales and cash taxes from asset-level revenues. Revenues were based on reported quarterly GEOs multiplied by the average gold price in each quarter. Estimated cash costs of sales assume a C\$3.00/oz transport and refining cost for Canadian Malartic, C\$3.25/oz for Island Gold, C\$4.00/oz for Eagle, an 8% transfer price for Mantos Blancos as of Q4 2019 and a 25% transfer price from acquisition to Q3 2019, and a 4% transfer price for CSA. No cash taxes were paid on any of the select assets as at December 31, 2024. (iv) As at December 31, 2024. (iv) As at December 31, 2024. (iv) As at December 31, 2024. (v) Total including consensus

RBC

EXTENSIVE ANALYST COVERAGE

ENDNOTES

- 1. Gold equivalent ounces ("GEOs") are calculated on a quarterly basis and include royalties and streams. Silver ounces and copper tonnes earned from royalty and stream agreements are converted to gold equivalent ounces by multiplying the silver ounces or copper tonnes by the average gold price per ounce for the period. For average metal prices used, refer to the Portfolio of Royalty, Stream and Other Interests section of OR Royalties' MD&A for the three months ended March 31, 2025 and published don May 7th, 2025.
- 2. Cash margin is a non-IFRS financial performance measure which has no standard definition under IFRS. It is calculated by deducting the cost of sales (excluding depletion) from the revenues. Please refer to the non-IFRS measures provided under the Non-IFRS Measures section of OR Royalties' MD&A for the the three months ended March 31, 2025, and published on May 7th, 2025. A cash margin of 96.5% was reported for 2024 and a cash margin of 97% was estimated for 2025; <u>https://osiskogr.com/app/uploads/2025/02/OR-Q4-2024-MDA En Final for-filing.pdf</u>
- 3. Broker research, as at market close on June 27, 2025. Peer P/NAV multiples may not reflect the potential dilution from announced but not yet closed transactions involving share-based consideration, as associated asset NAVs are not yet incorporated in broker estimates.
- 4. Operating cash flow per share is calculated by dividing net cash flows provided by operating activities from the royalties, streams and other interests segment for the year by the average number of basic common shares outstanding for the year. For 2022, 2023, and 2024, reported US\$ values were used.
 For 2015 to 2021, reported C\$ value were converted using the average annual CADUSD rate for a given year. USD:CAD FX rates of 1.2785 for 2015; 1.3245 for 2015; 1.3245 for 2016; 1.2986 for 2017; 1.3257 for 2018; 1.3269 for 2019; 1.3415 for 2020; and 1.2535 for 2021.
- 5. Analyst consensus NAV per share as at December 31st of given year. Historic data retrieved from FactSet on March 24, 2025.
- 6. For peer cash margin data, refer to "Triple Flag Precious Metals Corp. Fourth Quarter Report for the Three and Twelve Months ended December 31, 2024" (released 2025-02-19), "Sandstrom Gold Royalties 2024 Annual Report" (released 2025-02-18), "Franco-Nevada Corporation 2024 Annual Report" (released 2025-03-10), "Wheaton Precious Metals 2024 Financial Statements" (released 2025-03-13), and "Royal Gold, Inc. - 20. Mineral Resource and Mineral Reserve figures are only estimates. Such estimates are expressions of judgment based on knowledge, mining experience, analysis of drilling results, and industry practices. While OR Royalties believes that the Mineral Resource and Mineral Resource and Mineral Reserves estimates, as applicable, in respect of properties in which OR Royalties holds royalties, streams, or other interests reflect best estimates performed by or on behalf of the owner of such properties, the estimating of Mineral Resource and Mineral Reserves is a subjective process and the accuracy of Mineral Resource and Mineral Reserve estimates is a function of the quantity and quality of available data, the accuracy of statistical computations, and the assumptions used and judgments made in interpreting available engineering and geological information. There is significant uncertainty in any Mineral Resource and Mineral Resource and Mineral Reserve estimate and the actual deposits encountered and the economic viability of a deposit may differ materially from estimates. Estimated Mineral Resource and Mineral Reserves may have to be re-estimated based on changes in prices of gold or other minerals, further exploration or development activity, or actual production experience. This could materially and adversely affect estimates of the volume or grade of mineralization, estimated economic viability. If operators reduce their Mineral Resources and Pointeral Resources and Pointeral Resources and Pointeral Resources and Mineral Resources and Mineral Resources and Pointeral Resources and Pointeral Resources and Pointeral Resources and Norther any Mineral Resources and Northeral Resources and Northeral Resources and Northeral Resources and Pointeral Resources and Pointeral Resources and Northeral Resources and Northeral Resources and Northeral Resources and Northeral Resources and Pointeral Resources and Pointeral Resources and Resources
- 21. Dividend per GEO is calculated by dividing total dividends declared per year (CAD\$) by the total number of GEOs earned per year. Buybacks per GEO is calculated by dividing total share buybacks per year (CAD\$) by GEOs earned per year.
