### 1. Nature of activities

OR Royalties Inc. (formerly Osisko Gold Royalties Ltd) and its subsidiaries (together, "OR Royalties" or the "Company") are engaged in the business of acquiring and managing royalties, streams and similar interests on precious metals and other commodities that fit the Company's risk/reward objectives. OR Royalties is a public company domiciled in the Province of Québec, Canada, whose shares trade on the Toronto Stock Exchange and the New York Stock Exchange and is constituted under the *Business Corporations Act* (Québec). The address of its registered office is 1100, avenue des Canadiens-de-Montréal, Suite 300, Montréal, Québec. The Company owns a portfolio of royalties, streams, options on royalty/stream financings and exclusive rights to participate in future royalty/stream financings on various projects. The Company's main asset is a 3-5% net smelter return ("NSR") royalty on the Canadian Malartic Complex, located in Québec, Canada.

### 2. Material accounting policy information

#### Basis of presentation

These unaudited condensed interim consolidated financial statements have been prepared in accordance with IFRS Accounting Standards as issued by the *International Accounting Standards Board* ("IASB") applicable to the preparation of interim financial statements under IAS 34, *Interim Financial Reporting*. The condensed interim consolidated financial statements should be read in conjunction with the Company's annual consolidated financial statements for the years ended December 31, 2024 and 2023, which have been prepared in accordance with IFRS Accounting Standards as issued by the IASB. The accounting policies, methods of computation and presentation applied in these unaudited condensed interim consolidated financial statements are consistent with those of the previous financial year. The Board of Directors approved these condensed interim consolidated financial statements for issue on August 5, 2025.

The condensed interim consolidated financial statements included herein reflect all adjustments, consisting only of normal recurring adjustments which, in the opinion of management, are necessary for a fair presentation of the results for the interim periods presented. The results of operations for the three and six months ended June 30, 2025 are not necessarily indicative of the results to be expected for the full year. Taxes on income in the respective interim periods have been accrued using the tax rates that would be applicable to expected total annual income.

#### Change in presentation currency

During the year ended December 31, 2024, the Company elected to change its presentation currency from Canadian dollars ("C\$") to U.S. dollars. The change in presentation currency is to improve investors and other stakeholders' ability to compare the Company's financial results with other precious metals royalty and streaming companies, who mostly report their results in U.S. dollars.

In accordance with IAS 8, *Accounting Policies, Changes in Accounting Estimates and Errors*, this change in presentation currency was applied retrospectively as if the new presentation currency had always been the Company's presentation currency and, accordingly, the comparative figures for 2024 have been restated (including in the notes to the condensed interim consolidated financial statements).

## Notes to the Interim Consolidated Financial Statements For the three and six months ended June 30, 2025 and 2024

(tabular amounts expressed in thousands of U.S. dollars, except per share amounts)

### 2. Material accounting policy information (*continued*)

#### Accounting standards issued but not yet effective

The Company has not yet adopted certain standards, interpretations to existing standards and amendments which have been issued but have an effective date of later than December 31, 2025. These standards, interpretations to existing standards and amendments, other than *IFRS 18 Presentation and Disclosure in Financial Statements* and the amendments to *IFRS 9 Financial Instruments* and *IFRS 7 Financial Instruments: Disclosures*, which are presented below, are not expected to have any significant impact on the Company or are not considered material and are therefore not discussed herein.

#### *IFRS 18 Presentation and Disclosure in Financial Statements*

In April 2024, the IASB issued IFRS 18, the new standard on presentation and disclosure in financial statements, with a focus on updates to the statement of profit or loss. IFRS 18 was issued in response to investors' concerns about the comparability and transparency of entities' performance reporting. The new requirements introduced in IFRS 18 will help to achieve comparability of the financial performance of similar entities, especially related to how 'operating profit or loss' is defined. The new disclosures required for some management-defined performance measures will also enhance transparency. The key new concepts introduced in IFRS 18 relate to:

- the structure of the statement of profit or loss;
- required disclosures in the financial statements for certain profit or loss performance measures that are reported outside an entity's financial statements (that is, management-defined performance measures); and
- enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes in general.

IFRS 18 will replace IAS 1; many of the other existing principles in IAS 1 are retained, with limited changes. IFRS 18 will not impact the recognition or measurement of items in the financial statements, but it might change what an entity reports as its 'operating profit or loss'.

IFRS 18 will apply for reporting periods beginning on or after January 1, 2027 and also applies to comparative information. Management is currently assessing the impact of the new standard on its consolidated financial statements.

#### *Amendments – IFRS 9 Financial Instruments and IFRS 7 Financial Instruments: Disclosures*

On May 30, 2024, the IASB issued targeted amendments to IFRS 9 and IFRS 7, which respond to recent questions arising in practice. The amendments were issued to:

- clarify the date of recognition and derecognition of some financial assets and liabilities, with a new exception for some financial liabilities settled through an electronic cash transfer system;
- clarify and add further guidance for assessing whether a financial asset meets the solely payments of principal and interest criterion;
- add new disclosures for certain instruments with contractual terms that can change cash flows; and
- update disclosures for equity instruments designated at fair value through other comprehensive income.

The new requirements will apply from January 1, 2026, with early application permitted. Management is currently assessing the impact of the amendments on its consolidated financial statements.

#### **Critical accounting estimates and significant judgements**

The preparation of consolidated financial statements in conformity with IFRS Accounting Standards requires the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The Company also makes estimates and assumptions concerning the future. The areas of judgement and estimation are consistent with those reported in the annual consolidated financial statements for the years ended December 31, 2024 and 2023.

- (i) During the year 2024, the Company advanced funds to an associate, which holds a mining project in development on which the Company owns a stream interest. Following signature of a term sheet with the associate in 2024, the carrying value of the loan (\$12.2 million) was reclassified to *other investments* as the repayment terms were not expected to be within the next 12 months.

During the six months ended June 30, 2025, the Company advanced additional funds of \$1.6 million to the associate. In June 2025, the Company sold its interest to a third party for a nominal amount. The stream interest held on the project as well as the note receivable were amended at the time of the transaction and will continue to be assumed by the new operator. As of June 30, 2025, the net book value of the amended note receivable amounted to \$13.8 million. The note bears an interest rate of 8% and is secured by the assets of the mining project. Repayment of the note will commence after production starts and the full repayment by the operator of a \$150 million bank credit facility.

- (ii) On May 27, 2025, MAC Copper Limited ("MAC Copper") announced that it had entered into a binding scheme implementation deed (the "Transaction") with Harmony Gold Mining Company Limited ("Harmony") and Harmony Gold (Australia) Pty Ltd ("Harmony Australia"), a wholly-owned subsidiary of Harmony, under which it is proposed that Harmony Australia will acquire 100% of the issued share capital in MAC Copper. Under the terms of the Transaction, MAC Copper shareholders will receive \$12.25 cash per MAC Copper share. As of June 30, 2025, OR Royalties, through its fully-owned subsidiary OR Royalties International Ltd. (formerly Osisko Bermuda Limited), owns 4,000,000 shares of MAC Copper, which under the current terms of the Transaction are worth \$49.0 million. As a result of the binding Transaction, the investment in MAC Copper was presented under *investment held for sale* on the consolidated balance sheets as at June 30, 2025.

Other investments comprise common shares, warrants and convertible instruments, mostly from companies publicly traded in Canada and in the United States of America, as well as loans receivable (notes).

### Main acquisition – 2025

#### Silver stream – South Railroad project

In May 2025, OR Royalties International Ltd. (“OR Royalties International”) acquired a silver stream on Orla Mining Ltd.’s South Railroad project in Nevada, United States, for \$13.0 million. OR Royalties International will be entitled to receive 100% of the silver production from the Dark Star, Pinion and Jasperoid Wash deposits for the life of mine, in exchange for ongoing cash payments for refined silver equal to 15% of the silver spot price at the time of delivery.

#### Revolving credit facility

In May 2025, the Company amended its existing revolving credit facility (the “Credit Facility”), including the conversion from a Canadian dollar denominated facility to a United States dollar denominated facility, as well as an increase in the overall size of the Credit Facility. Under the amended agreement, the Company has now access to a Credit Facility of \$650.0 million with an additional uncommitted accordion of up to \$200.0 million (subject to acceptance by the lenders). The previous credit facility agreement had a maximum amount of C\$550.0 million with an uncommitted accordion of up to C\$200.0 million.

The maturity date of the Facility was extended from April 30, 2028 to May 30, 2029. The Facility is to be used for general corporate purposes and investments in the mineral industry, including the acquisition of royalties, streams and other interests, and is secured by the Company’s assets.

The Facility is subject to standby fees. Funds drawn bear interest based on the base rate, prime rate, Canadian Overnight Repo Rate Average (“CORRA”) or Secured Overnight Financing Rate (“SOFR”), plus an applicable margin depending on the Company’s leverage ratio. As at June 30, 2025, the effective interest rate on the drawn balance was 4.88%, including the applicable margin.

The Facility includes quarterly covenants that require the Company to maintain certain financial ratios, including leverage ratios, and to meet certain non-financial requirements. As at June 30, 2025, all such ratios and requirements were met.

	<u>0.101</u>			<u>18,676,000</u>

- (i) Prior to May 2025, the dividends were declared in Canadian dollars. From May 2025, the quarterly dividend is declared in United States dollars. On February 19, 2025, the Board of Directors declared a quarterly dividend of C\$0.065 to shareholders of record as of the close of business on March 31, 2025. Based on the foreign currency rate (C\$/US\$) on the declaration date, the corresponding dividend per share in U.S. dollars was \$0.046.

As at June 30, 2025, the holders of 11.4 million common shares had elected to participate in the Dividend Reinvestment Plan, representing dividends payable of \$0.6 million. Therefore, 23,915 common shares were issued on July 15, 2025 at a discount rate of 3%.

	<u>1,340,767</u>	<u>16.23</u>	<u>2.5</u>	<u>1,001,766</u>	<u>15.52</u>

The fair value of the share options is recognized as compensation expense over the vesting period. During the three and six months ended June 30, 2025, the total share-based compensation related to share options amounted to \$0.2 million and \$0.4 million, respectively (\$0.4 million and \$0.9 million during the three and six months ended June 30, 2024, respectively).

#### Deferred and restricted share units

The Company offers a deferred share unit (“DSU”) plan and a restricted share unit (“RSU”) plan, which allow DSUs and RSUs to be granted, respectively, to non-executive directors, officers and/or employees as part of their director’s fees or long-term compensation package, as applicable.

The following table summarizes information about the DSUs and RSUs movements:

	Six months ended June 30, 2025		Year ended December 31, 2024	
	DSUs <sup>(i)</sup>	RSUs <sup>(ii)</sup>	DSUs <sup>(i)</sup>	RSUs <sup>(ii)</sup>

Balance – Vested	<u>295,864</u>	<u>-</u>	<u>381,246</u>	<u>-</u>

- (i) Unless otherwise decided by the Board of Directors of the Company, the DSUs vest the day prior to the next annual general meeting and are payable in common shares, cash or a combination of common shares and cash, at the sole discretion of the Company, to each non-executive director when he or she leaves the board or is not re-elected. The accounting value of the payout is determined by multiplying the number of DSUs expected to vest at the settlement date by the closing price of the Company’s shares on the day prior to the grant date, and is recognized over the vesting period. When payment is settled by issuing common shares, one common share will be issued for each DSU, after deducting any income taxes payable on the benefit earned by the director that must be remitted by the Company to the tax authorities. The DSUs granted in the first six months of 2025 have a weighted average value of C\$34.01 per DSU (the DSUs granted during the first six months of 2024 had a weighted average value of C\$21.84 per DSU).

### 9. Share-based compensation (continued)

#### Deferred and restricted share units (continued)

- (ii) One half of the RSUs is time-based (the "time-based RSUs") and the other half is time-based and depends on the achievement of certain performance measures (the "performance-based RSUs"). The time-based RSUs granted prior to 2024 vest and are payable three years after the grant date. The time-based RSUs granted in 2024 and 2025 vest and are payable in three equal tranches at each anniversary of the grant date. The performance-based RSUs vest and are payable three years after the grant date. The RSUs are payable in common shares, cash or a combination of common shares and cash, at the sole discretion of the Company. The accounting value of the payout is determined by multiplying the number of RSUs expected to vest at the settlement date by the closing price of the Company's shares on the day prior to the grant date, and is recognized over the vesting period and adjusted for the performance-based components, when applicable. When payment is settled by issuing common shares, one common share is issued for each vested RSU, after deducting any income taxes payable on the benefit earned by the employee that must be remitted by the Company to the tax authorities. The RSUs granted in the first six months of 2025 have a weighted average value of C\$26.68 per RSU (the RSUs granted during the first six months of 2024 had a weighted average value of C\$18.79 per RSU).

The total share-based compensation expense related to the DSU and RSU plans for the three and six months ended June 30, 2025 amounted to \$2.0 million and \$3.8 million, respectively (\$1.2 million and \$2.3 million for the three and six months ended June 30, 2024, respectively).

Based on the closing price of the common shares at June 30, 2025 (\$25.71 or C\$35.00), and considering a marginal income tax rate of 53.3%, the estimated amount that the Company is expected to transfer to the tax authorities to settle the employees' tax obligations related to the vested DSUs and RSUs to be settled in equity amounts to \$4.0 million (\$3.7 million as at December 31, 2024) and to \$15.3 million based on all DSUs and RSUs outstanding (\$11.4 million as at December 31, 2024).

The following table provides information about financial assets and liabilities measured at fair value in the consolidated balance sheets and categorized by level according to the significance of the inputs used in making the measurements.

Level 1– Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2– Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices); and

Level 3– Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

- (i) On the basis of its analysis of the nature, characteristics and risks of equity securities, the Company has determined that presenting them by industry and type of investment is appropriate.
- (ii) Equity securities classified under *other minerals* are mostly related to copper.

During the six months ended June 30, 2025 and 2024, there were no transfers among Level 1, Level 2 and Level 3.

The following table presents the changes in the Level 3 investments (comprised of warrants and convertible instruments) for the six months ended June 30, 2025 and 2024:

	2025	2024
	\$	\$
Balance – January 1	6,675	6,883

Foreign exchange revaluation impact	363	(231)
Balance – June 30	6,928	6,717

- (i) Recognized in the consolidated statements of income (loss) under *other (losses) gains, net*.

The fair value of the financial instruments classified as Level 3 depends on the nature of the financial instruments.

The fair value of the warrants on equity securities and the convertible instruments of publicly traded mining exploration and development companies, classified as Level 3, is determined using directly or indirectly the Black-Scholes option pricing model. The main non-observable input used in the model is the expected volatility (warrants) or the discount rate (convertible instruments). An increase/decrease in the expected volatility used in the models of 10% or in the discount rate of 5% would have resulted in an insignificant variation of the fair value of the warrants and convertible instruments as at June 30, 2025 and December 31, 2024.

(tabular amounts expressed in thousands of U.S. dollars, except per share amounts)

### 13. Fair value of financial instruments (continued)

#### Financial instruments not measured at fair value on the consolidated balance sheets

Financial instruments that are not measured at fair value on the consolidated balance sheets are represented by cash, revenues receivable from royalty, stream and other interests, other receivables, notes receivable, accounts payable and accrued liabilities, and long-term debt. The fair values of cash, revenues receivable from royalty, stream and other interests, other receivables and accounts payable and accrued liabilities approximate their carrying values due to their short-term nature. The carrying value of the liability under the revolving credit facility approximates its fair value given that the credit spread is similar to the credit spread the Company would obtain under similar conditions at the reporting date. The fair value of the notes receivable approximates their carrying value as there were no significant negative changes in economic and risk parameters or assumptions related directly to the instruments since the issuance, acquisition, renewal or revaluation of those financial instruments.

### 14. Segment disclosure

The President and Chief Executive Officer (chief operating decision-maker) organizes and manages the business under a single operating segment, consisting of acquiring and managing precious metals and other royalties, streams and other interests. All of the Company's assets, liabilities, revenues, expenses and cash flows are attributable to this single operating segment. The following tables present segmented information for this single segment.

#### Geographic revenues

Geographic revenues from the sale of precious metals and other commodities received or acquired from in-kind royalties, streams and other interests are determined by the location of the mining operations giving rise to the royalty, stream or other interest. For the six months ended June 30, 2025 and 2024, royalty, stream and other interest revenues were earned from the following jurisdictions:

	North America <sup>(i)</sup>	South America	Australia	Africa	Europe	Total
	\$	\$	\$	\$	\$	\$
